

MY FUTURE WILL SHAPE THE WORLD

NSFAS-FUNDED STUDENTS

- a) Students who have been approved for NSFAS funding will be cleared for registration once the University receives a list of approved students from NSFAS.
- b) Returning students who were previously funded by NSFAS in the previous year and have passed 50% of their subjects and meet the **N+1 rule, or N+2 rule** in case of students with disabilities, will be cleared for registration.
- c) First-time entering (FTEN) students will be verified against the NSFAS system and will follow the process for registration; and if their application status is “waiting for registration” will be cleared for registration.
- d) Late registration of modules/subjects for NSFAS-funded students will be for the students’ own account as NSFAS will not fund any late registration of modules/subjects once the adjustments of registration data have closed.
- e) Late registration penalties for NSFAS-funded students will be for the students’ own account as NSFAS will not fund any late registration penalties.

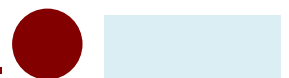

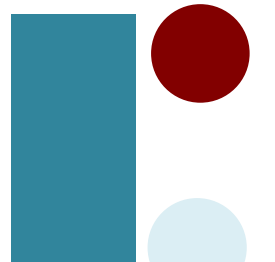

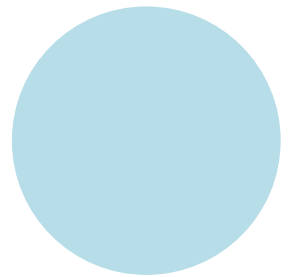

I am accountable. I pay my student fees.

f) **Post-Graduate/Advanced Diploma Students** - NSFAS funded students who completed their final year of studies in the 2022 academic year will NOT be cleared for registration under the NSFAS cohort of students as NSFAS does not fund Post-graduate/Advanced qualifications. These students will be blocked on the system and will be required to pay a registration deposit and ensure all arrear fees are settled before being allowed to register for any Post-Graduate/Advanced Diploma programme.

g) **Post-Graduate/Advanced Diploma Students** with arrear debt who claim or submit that this debt should be funded by NSFAS will NOT be allowed to register unless they pay the necessary registration deposits and settle the arrear debt. Should NSFAS subsequently confirm funding for the arrear debt, these students may then apply for a refund of the amount paid towards that debt.

h) **NSFAS Appeals** - Students who have lodged Appeals to NSFAS in respect of funding will NOT be allowed to register unless the required registration deposit is paid; and should their appeal be successful, the student may then apply for a refund of the deposit paid.

I am accountable. I pay my student fees.

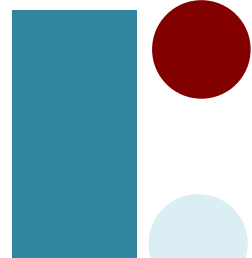

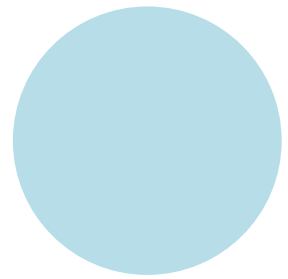

i) **Other NSFAS matters** - The same applies for all other NSFAS-related matters wherein funding is not confirmed. The students may be allowed to register only with the approval of the Student Registration and Onboarding Task Team (SORTT); and in all such instances, there will be no payment of allowances until such time as NSFAS has confirmed funding and the student appears on the NSFAS funded list.

j) **Arrear debt with confirmed 2023 NSFAS funding** - Students who have confirmed NSFAS funding for 2023 year and that may have historical debt outstanding will be allowed to register for the 2023 academic year, provided that they make arrangements with the University for the settlement of that historical debt. They will need to liaise with the FAO specifically in respect of this debt and complete a Payment Arrangement form.
