RFQ FORM

1. I/We hereby render to supply all or any of the supplies and/or to render all or any of the services described in the attached documents to Mangosuthu University of Technology on the items and conditions and in accordance with the specifications stipulated in the RFQ documents (and which shall be taken as part of, and incorporated into, this RFQ) at the prices and on the terms regarding time for delivery and/or execution inserted therein.
2. I/We agree that the offer herein shall remain binding upon me/us and open for acceptance by Mangosuthu University of Technology during the validity period indicated and calculated from the closing time of the RFQ.
3. if I/we withdraw my/our RFQ within the period for which I/we have agreed that the RFQ should remain open for acceptance or fail to fulfil the contract when called upon to do so, Mangosuthu University of Technology may without prejudice to its other rights, agree to the withdrawal of my/or RFQ or cancel the contract that may have been entered into between me/us and Mangosuthu University of Technology and I/we will then pay to Mangosuthu University of Technology any additional expense incurred by Mangosuthu University of Technology having either to accept any less favourable RFQ or fresh RFQs have to be invited, the additional expenditure incurred by the invitation of fresh RFQ and by the subsequent acceptance of any less favourable RFQ, Mangosuthu University of Technology shall also have the right to recover such additional expenditure by set-off against moneys which may be due or become to me/us under this or any other RFQ or contract or against any guarantee or deposit that have been furnished by me/us or on my/our behalf for the due fulfilment of this or any other RFQ or contract and pending the ascertainment of the amount of such additional expenditure to retain such moneys, guarantee or deposit as security for any loss Mangosuthu University of Technology may sustain by reason of my/our default.
4. If my/our RFQ is accepted the acceptance may be communicated to me/us by letter or ordinary post or registered post and that SA Post Office Ltd shall be regarded as my/our agent. Delivery or such acceptance to SA Post Office Ltd shall be treated as delivery to me/us.

5. The law of the Republic of South Africa shall govern the contract created by the acceptance of my/our RFQ and that I/we choose domicilium citandi et executandi in the Republic (full address).
6. I/We furthermore confirm that I/we have satisfied myself/ourselves as to the correctness and validity of my/our RFQ, that the price(s) and rate(s) quoted cover all the work/items(s) in these documents; and that the price(s) and rate(s) cover all my/our obligations under a resulting contract. I/we accept that any mistakes regarding price(s) and calculations will be at my/our risk.
7. I/we hereby accept full responsibility for the proper execution and fulfilment of all obligations and conditions devolving on me/us under this agreement as the principal(s) liable for the due fulfilment of this contract.
8. I/We agree that any action from this contract in all respects be instituted against me/us and I/we hereby undertake to satisfy fully any sentence or judgment which may be pronounced against me/us as a result of such action.
9. I/We declare that I/we have participation /no participation in the submission of any other offer for the supplies/service described in the attached documents. If in the affirmative, state name(s) or RFQ(s) involved.

10. -----

Are you duly authorized to sign for this the RFQ? *YES / NO

11. Has the Declaration of Interest been duly completed and included with the other RFQ forms?
 *YES / NO

2. Background

The Mangosuthu University of Technology (MUT) is improving its bulk water system and has made a provision to increase its water storage capacity to supply the main campus. An Elevated Steel Tank is required to achieve this to accommodate the fast-growing population of students within the University.

3. Project Description

A geotechnical investigation is required to provide a design-level geotechnical report for input for the design and construction phases of the proposed water storage development. The local setting of the three (3) site location including the approximate latitude and longitude coordinates (decimal degrees) of the start and end points of the project area, are shown on the map in Figure 1, 2 & 3.

Figure 1: MUT Location 1 – 1ML Elevated Structure Proposed Geotechnical Investigation Points, Google Earth 2024

Figure 2: MUT Location 2 – 1ML Ground storage Tank Proposed Geotechnical Investigation Point, Google Earth 2024

Figure 3: MUT Location 3 – Existing Filtration platform Geotechnical Investigation Point, Google Earth 2024

4. Scope of Service

Assumed Loading

Location 1: The anticipated storage capacity of the proposed Elevated Steel Tank capacity 1000KL, with a 30m high steel stand which weighs approximately 72.7 Tons. The empty steel tank will weigh approximately 27.5 Tons.

A 100-ton crane will be used during construction to erect and position the Elevated Steel Tank. The crane will use a road reserve nearby within the boundary during construction to erect steel. The anticipated maximum differential settlement must be limited to 10mm. A revised total elevated tank + stand load will be confirmed once the Tank's construction drawings are made available. A pumpstation will also be constructed on the same site.

Location 2: Anticipated storage capacity of proposed ground storage tank capacity is 1ML, the weight of empty tank is approximately 27.5Tons. The anticipated maximum differential settlement must be limited to 10mm

Location 3: A filtration platform has been constructed on a cut to fill embankment. Geotechnical tests are to be conducted to determine the material parameters. A pumpstation and 2x40KL JoJo storage tanks will be constructed on the platform. The anticipated maximum differential settlement must be limited to 10mm

Geotechnical Investigation – Minimum Requirements

Locations 1 & 3: The geotechnical specialist must provide the required lateral extent of the investigation per the site Locations 1 & 3 above to provide a geotechnical model that is sufficient enough such that the surrounding area conditions will not have a material impact on the performance of the design and development of the project. The report must provide the following broad aspects that include:

- Geological, geotechnical, and geohydrological conditions prevalent on the site.
- Engineering characterisation and classification of subsurface materials.
- Comment on the geotechnical factors that could impact the short-term and long-term development.
- Foundation recommendations for the proposed development in line with the industry guidelines and codes of practice.
- Geotechnical site investigation, including excavating trial pits and in-situ testing across the site.
- Schedule and time required to complete the geotechnical programme inclusive of the fieldwork and laboratory analysis.
- Detailed the required fieldwork and laboratory analysis cost to a level appropriate for design and construction.
- Geotechnical Factual Report for design and construction.
- All required health, safety and environmental considerations during the investigation, and construction

A geotechnical model must address specific aspects that include:

- Maximum net allowable bearing capacity of the in-situ soils. This will include a possibility for the pump room light foundation, Elevated Steel tank and stand, Foundation type recommendation for elevated steel tank, retaining walls etc.
- Anticipated total and differential settlement/heave for footings supporting structural design pressures.
- Comment on possible founding conditions. Including a detailed geotechnical design of the:

- a) The required ground improvement system.
 - b) Engineered fill material required, as part of foundation recommendations in the Geotechnical Report.
 - c) Soil stability analysis for recommended retaining structures.
- Comment on subsoil / sub-grade conditions and general geology.
 - Hydrological and hydrogeological model in the site including surface and subsurface groundwater flows, depth to the groundwater table and presence of perched groundwater and pore pressures.
 - Comment on the short & long-term slope protection.
 - Comment on the excavation procedure of the in-situ soils – including advice in terms of excavating adjacent to existing R.C. and block retaining walls, where applicable.
 - Material classification of in-situ soils and comment on the suitability of in-situ soils for usage on-site earthworks/layer works.
 - Comment on overall soil stability during and after construction
 - Comment on short-term stability for a 100-ton crane within this area during construction.
 - All soil stability parameters for the design of retaining walls.
 - Soil permeability tests to assess on-site percolation.
 - Allow for excavation of 4 no. off inspection pits for the geotechnical investigation.

Specific Information Required

The following laboratory tests are required, but not limited to the following:

1. Grading Analysis, Atterberg Limit and Foundation Indicator Tests. (Allow for 4 no. off).
 - a. **Note:** allow for the above to be undertaken at approximately 3.0 meters below Natural Ground Level (i.e., the competent horizon).
2. Modified AASHTO Density Tests for the various soil types. (Allow for 4 no.)
3. California Bearing Ratio (CBR) including.
 - a. Dynamic Cone Penetrometer (DCP) Tests (allow for 4 no.)
 - b. Dynamic Cone Penetrometer Light (DPL) Tests (allow for 4 no.)
4. Swell potential tests (if clayey subsoils are encountered). (Allow for 4 no.)
5. Standard Soil Consolidation and Oedometer tests. (Allow for 4 no.)
6. Shear Strength in terms of Triaxial tests (consolidated undrained tests with pore water pressure measurements).
7. Shear Strength in terms of UCS tests on rock/cement stabilized material samples (allow for 4 no.), If rock is encountered at shallow depths below existing ground level.

Location 2: The geotechnical specialist must provide the required lateral extent of the investigation per the site Location 2 above to provide a geotechnical model that is sufficient enough such that the surrounding area conditions will not have a material impact on the performance of the design and development of the project. The report must provide the following broad aspects that include.

1. Grading Analysis, Atterberg Limit and Foundation Indicator Tests. (Allow for 2 no. off).
 - a. **Note:** allow for the above to be undertaken at approximately 3.0 meters below Natural Ground Level (i.e., the competent horizon).
2. Modified AASHTO Density Tests for the various soil types. (Allow for 2 no.)
3. California Bearing Ratio (CBR) including.
 - a. Dynamic Cone Penetrometer (DCP) Tests (allow for 2 no.)
 - b. Dynamic Cone Penetrometer Light (DPL) Tests (allow for 2 no.)
4. Swell potential tests (if clayey subsoils are encountered). (Allow for 2 no.)

Location 2 geotechnical model must address specific aspects that include:

- Maximum net allowable bearing capacity of the in-situ soils. This will include a Ground steel tank, Foundation type recommendation for tank, retaining walls etc.
- Anticipated total and differential settlement/heave for footings supporting structural design pressures.
- Comment on possible founding conditions. Including a detailed geotechnical design of the:
 - d) The required ground improvement system.
 - e) Engineered fill material required, as part of foundation recommendations in the Geotechnical Report.
 - f) Soil stability analysis for recommended retaining structures.
- Comment on subsoil / sub-grade conditions and general geology.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

- 1 This document must form part of all bids¹ invited.

- 2 Section 4 (1) (b) (iii) of the Competition Act No. 89 of 1998, as amended, prohibits an agreement between, or concerted practice by, firms, or a decision by an association of firms, if it is between parties in a horizontal relationship and if it involves collusive bidding (or bid rigging).² Collusive bidding is a *pe se* prohibition meaning that it cannot be justified under any grounds.

- 3 Treasury Regulation 16A9 prescribes that accounting officers and accounting authorities must take all reasonable steps to prevent abuse of the supply chain management system and authorizes accounting officers and accounting authorities to:
 - a. disregard the bid of any bidder if that bidder, or any of its directors have abused the institution's supply chain management system and or committed fraud or any other improper conduct in relation to such system.
 - b. cancel a contract awarded to a supplier of goods and services if the supplier committed any corrupt or fraudulent act during the bidding process or the execution of that contract.

- 4 This form serves as a certificate of declaration that would be used by institutions to ensure that, when bids are considered, reasonable steps are taken to prevent any form of bid-rigging.

5 In order to give effect to the above, the attached Certificate of Bid Determination must be completed and submitted with the bid:

¹ Includes price quotations, advertised competitive bids, limited bids, and proposals.

² Bid rigging (or collusive bidding) occurs when businesses, that would otherwise be expected to compete, secretly conspire to raise prices, or lower the quality of goods and / or services for purchasers who wish to acquire goods and / or services through a bidding process. Bid rigging is, therefore, an agreement between competitors not to compete.

CERTIFICATE OF INDEPENDENT BID DETERMINATION

I, the undersigned, submitting the accompanying bid:

(Bid Number and Description)

in response to the invitation for the bid made by:

(Name of Institution)

do hereby make the following statements that I certify to be true and complete in every respect:

I certify, on behalf of: _____ that:

(Name of Bidder)

1. I have read and understand the contents of this Certificate;
2. I understand that the accompanying bid will be disqualified if this Certificate is found not to be true and complete in every respect;
3. I am authorized by the bidder to sign this Certificate, and to submit the accompanying bid, on behalf of the bidder;
4. Each person whose signature appears on the accompanying bid has been authorized by the bidder to determine the terms of, and to sign the bid, on behalf of the bidder;
5. For the purposes of this Certificate and the accompanying bid, I understand that the word "competitor" shall include any individual or organization, other than the bidder, whether or not affiliated with the bidder, who:
 - (a) has been requested to submit a bid in response to this bid invitation;
 - (b) could potentially submit a bid in response to this bid invitation, based on their qualifications, abilities, or experience; and

- (c) provides the same goods and services as the bidder and/or is in the same line of business as the bidder
6. The bidder has arrived at the accompanying bid independently from, and without consultation, communication, agreement, or arrangement with any competitor. However, communication between partners in a joint venture or consortium³ will not be construed as collusive bidding.
7. In particular, without limiting the generality of paragraphs 6 above, there has been no consultation, communication, agreement, or arrangement with any competitor regarding:
- (a) prices;
 - (b) geographical area where product or service will be rendered (market allocation)
 - (c) methods, factors, or formulas used to calculate prices;
 - (d) the intention or decision to submit or not to submit, a bid;
 - (e) the submission of a bid which does not meet the specifications and conditions of the bid; or
 - (f) bidding with the intention not to win the bid.
8. In addition, there have been no consultations, communications, agreements, or arrangements with any competitor regarding the quality, quantity, specifications and conditions or delivery particulars of the products or services to which this bid invitation relates.
9. The terms of the accompanying bid have not been, and will not be, disclosed by the bidder, directly or indirectly, to any competitor, prior to the date and time of the official bid opening or of the awarding of the contract.

³ Joint venture or Consortium means an association of persons for the purpose of combining their expertise, property, capital, efforts, skill, and knowledge in an activity for the execution of a contract.

10. I am aware that, in addition and without prejudice to any other remedy provided to combat any restrictive practices related to bids and contracts, bids that are suspicious will be reported to the Competition Commission for investigation and possible imposition of administrative penalties in terms of section 59 of the Competition Act No 89 of 1998 and or may be reported to the National Prosecuting Authority (NPA) for criminal investigation and or may be restricted from conducting business with the public sector for a period not exceeding ten (10) years in terms of the Prevention and Combating of Corrupt Activities Act No 12 of 2004 or any other applicable legislation.
