- b) All fees are payable in full, irrespective of whether the academic programme is interrupted by factors beyond the University's control, e.g. load shedding, water restrictions, strikes, student boycotts, civil unrest, or other unforeseen disruption on campus. Full fees are payable in the case of suspension or expulsion of a student resulting from any disciplinary measures
- c) The student undertakes to make payment of all fees on or before the final instalment date, failing which he/she may be subject to: -
 - 1. An encumbrance on his/her enrolment:
 - 2. Cancellation of enrolment;
 - 3. Not being allowed to attend the graduation ceremony and/or receive their certificate upon graduation.
 - 4. Signing a "Fee Payment Arrangement (FPA)" agreement, supported by a signed surety and making payment arrangements with MUT.
 - 5. Not be allowed to register for the next period of study; and/or
 - 6. Hand over to a Debt Collection Agency for further action which may have legal and financial consequences for the student.
- d) The fee requirements as stipulated in this handbook must be adhered to by all students wishing to register at MUT and applies to all "First Time Entering (FTEN)" students as well as returning students.
- e) By virtue of the student registering, the student, parent, guardian or surety accepts responsibility for payment of all fees by the due dates and to make enquiries regarding the fee account timeously.
- f) It is the responsibility of the student to inform the University of his/her correct residential and postal address, telephone numbers and email address or changes thereto.
- g) All students are required to provide the University with valid bank account details. Bank and other charges arising from incorrect details provided will be billed to the students account.
- h) The SRC Levy, Sports Levy and Insurance Levy are compulsory and must be paid upfront upon registration.
- i) Any deposit to be refunded is transferred to the student's fees account. If the fee account shows an outstanding balance, the refund is credited to that account. If there has been no application for the refund of a particular deposit after a period of 12 months, the deposit is forfeited.
- j) Students, parents, guardians and/or sureties in breach of these terms and conditions shall be liable to pay all legal costs incurred by the University as a result thereof, based on the prevailing attorney and client rate, in consequence of which their details may be forwarded to credit rating bureaus.
- k) If students fail to register on the specified date, the student would be permitted to register on the prescribed days for late registration and would be required to pay a late registration penalty.
- Students are urged to acquaint themselves with the requirements governing withdrawal from the University and/or Residence and the cancellation of modules or subjects.

2. FEE CLEARANCE

2.1 Arrear/Outstanding fees

Returning students must ensure that all outstanding/arrear fees are paid in full prior to registration. Please note that students who have been handed over may settle their fees with the Debt Collectors.

Fees for the 2025 academic year must be paid according to the payment plan as per Section 5, failing which examination results may be withheld and registration for the 2nd semester may be withdrawn.

2.2. NSFAS Funded Students

- a) Students who have been approved for NSFAS funding will be cleared for registration once the University receives a list of approved students from NSFAS.
- b) First-time entering (FTEN) students will be verified against the NSFAS system and will follow the process for registration; and if their application status is, "provisionally funded" or "waiting for registration" will be cleared for registration.
- c) Late registration of modules/subjects for NSFAS-funded students will be for the students' own account as NSFAS will not fund any late registration of modules/subjects once the adjustments of registration data have closed.
- d) Late registration penalties for NSFAS-funded students will be for the students' own account as NSFAS will not fund any late registration penalties.
- e) NSFAS Appeals Students who have lodged Appeals to NSFAS in respect of funding will NOT be allowed to register unless the required registration deposit is paid; and should their appeal be successful, the student may then apply for a refund of the deposit.
- f) Post Graduate/Advanced Diploma Students with arrear debt who claim or submit that this debt should be funded by NSFAS will NOT be allowed to register unless they pay the necessary registration deposits and settle the arrear debt. Should NSFAS subsequently confirm funding for the arrear debt, these students may then apply for a refund of the amount paid towards that debt.
- g) Post Graduate/Advanced Diploma Students NSFAS funded students who completed their final year of studies in the 2024 academic year will NOT be cleared for registration under the NSFAS cohort of students as NSFAS does not fund Post-graduate/Advanced qualifications. These students will be blocked on the system and will be required to pay a registration deposit and ensure all arrear fees are settled before being allowed to register for any Post- Graduate/Advanced Diploma programme.
- h) Other NSFAS matters The students may be allowed to register only with the approval of the Student Registration and Onboarding Task Team (SORTT); and in all such instances, there will be no payment of allowances until such time as NSFAS has confirmed funding and the student appears on the NSFAS funded list.

i) Arrear debt with confirmed 2024 NSFAS funding - Students who have confirmed NSFAS funding for 2025 year and that may have historical debt outstanding will be allowed to register for the 2025 academic year, provided that they make arrangements with the University for the settlement of that historical debt. They will need to liaise with the FAO specifically in respect of this debt and complete a Fee Payment Arrangement form.

2.3. External Bursaries

- a) The Financial Aid Office (FAO) requires an official sponsorship/bursary letter from each sponsor/bursar addressed to the University on an official letterhead with the relevant authorized signature confirming the details of the award (that is, tuition, books, meals etc.) and the amount of the funding clearly indicating that the funds will be paid to the UNIVERSITY (not the student). The letter must be an original (photocopies or faxes are NOT acceptable).
- b) This must be submitted to the Financial Aid Office at **least three days prior** to registration for early financial clearance, failing which on the day of registration.
- c) The University will first have to confirm the bursary with the bursar/sponsor prior to finalization of the registration.
- d) An upfront payment of the applicable registration deposit per student is required from all bursars unless the bursar confirms in writing that the fees will be paid upon confirmation of registration of the student.
- e) All registration and residence fees should be settled by the bursar by the end of the academic term for which the student is registered for. Failure to settle the fees may result in blacklisting of the sponsor/bursar.
- f) As a general rule, there will be **NO automatic clearance of bursary students**. The following will be applied:
 - Returning students who were funded by bursaries in 2024 will <u>NOT</u> be automatically cleared to register for 2025 if they still have outstanding debt outstanding as at 31 December 2024. The students must follow up with their bursars/sponsor and should ensure that payment of previous year fees outstanding is made prior to registration.
 - All students who are funded by corporate and private bursaries must also pay the minimum registration deposits unless the bursar confirms in writing that fees will be paid once registration is confirmed. The student should make arrangements with their bursar/sponsor for the payment of the registration deposit.
 - 3. Students who have bursary letters from entities that currently or previously funded students at MUT and for which there are still balances outstanding will NOT be accepted unless that bursar settles the debt owing if that bursar is legally liable for such debt; failing which the student must then make payment arrangements with MUT for the settlement of the amount owing. The student must liaise with the FAO directly in this regard to make such payment arrangements by completing the Fee Payment Arrangement form.
 - 4. For SETA's who still owe money and are still providing funding to students for the next academic year/semester, the SETA must settle the arrear balance due or confirm in writing that arrear fees will be settled giving a date of settlement before students funded by the SETA in 2025 will be allowed to register.

2.4. Payment for additional subjects

- a) Registration of additional subjects will only be allowed on condition that these subjects are paid in advance. This will occur in instances where students have registered at the beginning of the academic term and paid their registration deposits but subsequent to such registration, want to register for additional subjects.
- **b)** This does not apply in instances where the addition of a subject in the following semester is a requirement of the specific programme which requires certain subjects/modules to be passed by a student first before the student can progress to the next level subject/module; provided that the student has paid the relevant deposit upon initial **registration.**

2.5. Students enrolling for Post-graduate/Advanced qualifications

- a) Student wishing to register for Post-graduate/Advanced qualifications must ensure that all arrear fees are settled prior to registration.
- b) All Post-graduate/Advanced qualifications will be "Blocked" from online registration and students wishing to register must ensure that they pay the required deposit so that they can be unblocked and registration can then proceed.

The MIP amount to be paid is dependent on whether the student requires tuition or whether the student requires both tuition and accommodation. The MIP also includes the student levies that are payable by the student. These levies form an important aspect of the student life experience on campus and enable various student activities to be undertaken for the benefit of students. These levies must also be paid at the beginning of the academic year/semester.
