

## UNIVERSITY NOTICE

### Enhanced Security Measures and Access Control

As part of our ongoing efforts to strengthen campus security, safety, and access control, the University is implementing strict access protocols for all individuals entering and exiting the campus premises.

**Effective immediately, the following measures will apply:**

1. **Mandatory Access Card Use**

All students and staff must use a valid and activated access card when entering and exiting the campus.

The student portal will no longer be accepted as a means of access for students.

2. **14-Day Activation Period**

A 14-day period is provided for everyone to activate their access cards.

The deadline for activation is 9 June 2025. After this date, no one will be allowed on campus without an activated card.

3. **Lost or Missing Cards**

Individuals who have lost their access cards must report to the ID Room to arrange for a replacement and activation.

4. **Staff Cooperation Required**

We urge all departments and staff members to assist in ensuring access cards are activated timeously.

No exceptions will be made after the deadline; access will be denied without an active card.

**Panel Contractors**

All panel contractors with ongoing projects within MUT premises are required to submit a complete list of employees who will be working on-site. This list must be handed to the Protection Service office as part of access clearance procedures.

We appreciate your full cooperation and urgency in complying with these new security measures. These protocols are essential to maintaining the safety and operational integrity of our campus.
