3. **A HISTORICAL OVERVIEW**

The late and former Chief Minister of KwaZulu first put forward the idea of establishing a tertiary educational institution specializing in technical subjects in 1974 at a meeting with the Chairperson of Anglo American and De Beers Consolidated Mines. Research was commissioned to investigate the potential in South Africa for the training and employment of more technicians and was undertaken by the South Africa Labour and Development Research Unit (SALDRU) of the University of Cape Town.

As the study showed that there was an immediate need and demand for more technicians, the Anglo American and De Beers Groups Chairperson's Fund decided to provide R5 million to build the necessary facilities, and at a later stage companies like Mobil Oil, AECI, the S.A. Sugar Millers' Association, the Rembrandt and Distillers Corporation, LTA Limited, Sasol and other sponsors provided more funds to establish the Schools for Chemical Engineering, Mechanical Engineering, Electrical Engineering, Civil Engineering and Building, and Business and Secretarial Studies.

In mid, 1977 the go-ahead was given for the project to begin, and it was decided by the Kwa-Zulu Cabinet to develop the Technikon on the site in Umlazi which, while part of Kwa-Zulu, is also part of the Durban Metropolitan area.

Given the urgency of the demand for technicians, and the need to build up the institution in an orderly fashion, it was decided to open its doors as soon as possible. Hence preliminary but permanent buildings were designed and built, and teaching began in 1979. The Technikon moved into its main buildings on their completion in September 1981.

In November 2007, Mangosuthu Technikon was renamed Mangosuthu University of Technology.

G. 13. APPLICATION FOR ADMISSIONS

13.1 Undergraduate Application

All prospective students must apply for admission to the University of Technology on prescribed forms which are available on request from the Admissions Section of the University or from the CAO.

Applications for admission to programmes of study offered by the Departments of Environmental Health, Agriculture, Community Extension and Nature Conservation must reach the CAO annually before 30 September. The closing date for all other applications is 31 October. All applications are subject to a selection process. Applicants will be notified as soon as possible after the above-mentioned closing dates whether or not their applications for admission have been approved.

13.2 Post Graduate Application

Applications for post graduate qualifications must be made on the prescribed application form obtainable from the university website and submitted together with the relevant documentation to the respective HODs.

G.14. **ADMISSION REQUIREMENTS: GENERAL REGULATIONS**

In addition to the normal admission requirements applicable to the various programmes, the University retains the right to administer further selection tests to students applying for admission to specific fields of study.

Admission requirements

- a. To register for a Certificate/Diploma a candidate must hold a Senior Certificate (if obtained before 2008), a National Senior Certificate (if obtained after 2008) or a recognised equivalent qualification. A student will only be admitted to a particular diploma if he/she satisfies the admission requirements of the specific programme of study as indicated in the Faculty Handbook.
- b. Candidates with a Senior Certificate must have passed at least five subjects including English and a minimum of one Higher Grade subject. At least three of the subjects must have been passed at the same examination sitting.
- c. Subject to Rule 14 (b), only school subjects on HG or SG are normally acceptable.
- d. Candidates with a National Senior Certificate as certified by Umalusi must have passed six recognised NSC 20 credit subjects with an achievement rating of 3, 4 or better. NB. Life Orientation is not included.
- e. Students holding a GCE, GCSE, IGCSE or the Cambridge School Certificate must have passed five approved ordinary level subjects including English Language, provided three subjects have been passed at the same examination sitting. Only symbols A, B or C are accepted as passes.

G.15. **REGISTRATION AS A STUDENT**

a. **General Regulations**

- i. A student shall, prior to the commencement of his studies, enrol as a student of the University by completing his registration form in full, thereby binding himself to the rules of the University and undertaking to pay the prescribed fees. In the event of semester courses, students shall enrol for every semester.
- ii. A student is provisionally registered until he submits his certificates serving as requirements for admission to a particular course of study. Such certificates must be submitted before 15 May in the year in which he first registers as a student and 15 October for the second semester unless the Registrar allows him extension of time. A student who has been registered on the basis of submission of fraudulent documents or payments will be deregistered with immediate effect after detection of such fraud.
- iii. Students have to provide the Registrar with a postal and residential address as well as an address for the receipt of University accounts. Any change in this address must be submitted to the Registrar without delay but not later than 7 days after such a change. Official correspondence/accounts sent to the addresses thus provided by the student will be deemed to have been received by him/her.
- iv. The Senate may annually determine the closing date for enrolment, provided that the Senate may consent to late registration on payment of a penalty. No student shall be admitted as a candidate for more than one degree, diploma or certificate at the same time,

without the special permission of the Senate. Likewise, no student registered at the University shall be permitted to enrol as a student at another tertiary institution at the same time, unless special permission has been granted by the Senate.

- v. Council may, after consultation with the Senate, restrict the number of persons who may be permitted to register for a particular programme, in which event the Senate may, from amongst the persons qualified to register for such a course, select those who will be permitted to register.
- vi. NOTE: Documents to be submitted on first registration
 1. Original National Senior Certificate/Senior Certificate
 2. Original copy of SA Identity document
- vii. NOTE: Documents to be submitted by international students on first registration:
 1. Original Educational Certificate/s and SAQA Evaluation
 2. Original copy of Passport
 3. Original Study Visa/Permit
 4. Proof of Medical Aid Cover
- b. **Registration for non-diploma purposes**
 - i. A student who does not wish to register for a diploma but is only interested in a particular course(s) may register for non-diploma purposes (NDP) if he/she meets the admission requirements for the particular course(s). Registration is subject to the approval of the respective HoD.
 - ii. Courses, half-courses, modules or papers followed for NDP are subject to the same conditions and other stipulations as those applicable to students following these for degree or diploma purposes.
 - iii. Courses, half-courses, modules or papers in which a student has passed for NDP will not necessarily be recognised as credits for a future diploma. The granting of such credit may be considered only if the student has qualified for admission to study for the relevant diploma on or before 30 April of the academic year in which he has passed the NDP course(s) or module(s).
- c. **Registration dates**

Student registration will take place in accordance with the registration dates as contained in the University Calendar. Prospective students must make sure of the dates, times and venues of registration. Students must abide by the registration programme and relevant deadlines.
- d. **Late Registration**

Late registration dates are indicated on the official University calendar. A late registration fee is levied on students who do not register on their specific registration dates. No person shall be considered for registration after the day of late registration.
- e. Students are not allowed to attend classes, write tests and/or assessments in module/s not registered for.

G.16. **TIME-TABLE CLASHES**

A student will not be allowed to register for subject combinations which will result in time-table clashes.

G.17. **CURRICULUM/ COURSE AMENDMENTS AND TERMINATION OF STUDIES**

A student may only amend his curriculum/courses before the last date for late registration as indicated in the University Calendar. In respect of each amendment the student is required to complete the prescribed form and obtain the approval of the Head of Department. The form must then be handed to the Faculty Officer.

If the student is attending a programme for which s/he is not registered, the said programme will be terminated immediately.

If it is necessary for a student to de-register from the University, the prescribed form, obtainable from the Faculty Officers must be completed, signed and handed to the Faculty Officer. Refunds will be administered in line with the cancellation dates. Should this procedure not be followed no refund (if any) will be credited to the student account.

G.18. **COURSE EXEMPTIONS/RECOGNITIONS**

- a. Exemption from subjects in respect of subjects passed at institutions other than a University of Technology
 - i. The Senate in its discretion may in certain circumstances grant exemption from a subject in respect of a similar subject which a student has passed at an institution other than a University of Technology. The exemptions so granted may not exceed 50% of the total subject credit value of a qualification and may not include any of the major subjects, at the final level.
 - ii. Students who wish to apply for recognition of subjects successfully completed at academic institutions other than the University of Technology, must direct such applications to the respective Head of Department for assessment before 31 October of the year preceding the intended year of registration. The Head of Department may accept applications after this closing date for submission to the Senate, but the full liability for any consequences of an unsuccessful late application for exemption rests with the student (see further below). No late applications will be accepted after 15 March of the relevant year of registration.

On application for course exemption/recognition, an original Academic record with a certificate of good conduct and syllabi of the courses for which exemption is requested, must accompany the application and a prescribed fee.
 - iii. Exemptions for subjects offered at Technical Colleges in Engineering Departments are indicated in the departmental handbooks.
 - iv. Exemption from an examination in a subject(s) will be considered if a student has passed an examination conducted by any other recognised examining body in corresponding or similar subject(s) on the same level.
 - v. Exemption from courses at tertiary level will not be considered on the basis of subjects passed at senior secondary level.

- vi. An application for exemption from an examination in a subject must be accompanied by documentary proof issued by the examining body concerned, that the student has passed the relevant course and has obtained a minimum of 50% of the total marks.
- vii. If an existing diploma programme has been revised so that the structure of the programme and the name of the diploma changes, diplomas will not be interchangeable and recognition of completed subjects will be refused.
- viii. If a student holds a terminated diploma, and wishes to obtain the new diploma, the student will receive recognition for a maximum of 50% of the number of relevant prescribed subjects.
- ix. As per the delegation of authority, the Faculty Executive Committee must approve all applications for subject credits/exemptions provided they fulfil the requirements mentioned in G18 (a) and (b).

b. Recognition of subjects passed at another University

A student who has not completed a diploma course at the University, and wants to enrol for another diploma course at the University, will be entitled to recognition of all corresponding subjects on condition that the original course of study is no longer pursued. However, a student from another institution who has not completed a diploma, and who wants to enrol for a study course at the University, will only be entitled to recognition of 50% of the subjects completed elsewhere. A student who has completed a diploma course at the University of Technology, and wants to enrol for another diploma course at the University is entitled to recognition of 50% of the courses contained in the completed curriculum, excluding the final (major) subjects. The number of subjects for recognition may be exceeded with the approval of the Senate.

Subjects which a student has passed at another University may be credited by the Senate in certain circumstances. The credits so granted may not exceed 50% of the total subject credit value of the qualification. **At least 60% of the subjects at the final level must be completed at Mangosuthu University of Technology.**

c. Unsuccessful application for course exemption

In the case of an unsuccessful application the student remains fully liable as far as academic and financial consequences for the relevant subjects are concerned.

d. Repeating a course

A student shall repeat all lectures, seminars, tutorials and practicals (depending upon the course) as if he is taking the course for the first time and shall report for all the papers again, provided that a Faculty Board may grant exemption from any class and other obligations.

The student shall, however, again obtain a course mark by means of tests, practicals, etc. In such cases the relevant Faculty shall communicate applicable concessions and conditions to the student in writing, and these shall be approved by the Faculty Board concerned.

e. Exemption from attending classes

In exceptional cases written application for exemption from class attendance in a particular subject shall be considered by the Faculty Board in accordance with the following:

- i. A student has attended classes in that subject during a previous academic period.

- ii. A student may not apply for exemption from class attendance for more than one subject during a particular academic year or semester.
 - iii. A student may not apply for exemption from class attendance for a subject on one level and continue simultaneously with that subject on the higher level.
 - iv. Should exemption from class attendance be granted, the student will still be required to write all tests and complete all assignments and practicals as scheduled for the period. The course mark of the previous period is thus deemed to be null and void.
 - v. Should a student be exempted from class attendance, such student will be required to register for and pay the full fees for the subject/programme.
 - vi. Exemption from class attendance in a subject will be granted for only one consecutive year/semester.
 - vii. Applications for exemption from attending classes must be lodged before the last date for late registration as published in the University Calendar.
- f. **Continuation of course**
A student may only continue with a course in a particular year provided all the requirements for the immediately preceding course and the curriculum requirements have been met.
- g. **Prerequisite courses**
- i. A student will not be allowed to register for a particular subject unless the pre-requisite subject, as indicated in the rules pertaining to the programme, has been completed successfully.
 - ii. A student will not be allowed to register for a particular subject unless the co-requisite subject, as indicated in the rules pertaining to the programme, has been completed successfully, or the student registers for the co-requisite subject.
- h. **Conferring of status**
If a student wishes to register for further study for which the possession of a certificate or diploma is a prerequisite, but where such a certificate or diploma has not been obtained at a recognised institution or by means of a recognised course of study, the Senate may, as the case may be, and after the necessary evaluation has been done, admit such student to the prospective further study on the basis of a certificate or diploma obtained at such institution or on the basis of such other studies or experience, as well as in cases where the certificate or diploma has been obtained at a recognised institution elsewhere or locally and where the qualification has been obtained in one curriculum group and a further qualification has to be obtained in another curriculum group.
- i. **Recognition of internal examinations**
- i. A student who wishes to register for another programme of study before completing a National Diploma or Diploma at the University is entitled to recognition of all corresponding subjects on condition that the current programme of study is cancelled.

- ii. A student who has passed a programme of study successfully and wishes to register for another programme of study may apply for recognition of up to 50% of the junior section of the prescribed corresponding subjects. Such student may not repeat any majors for the remaining 50% of the course of study.
- iii. All applications for exemption/recognition of courses are subject to the Senate's approval.
- iv. The fact that a subject has been exempted or recognised will be indicated on the Academic Record.

G.19. CHOICE OF MAJOR OR PRINCIPAL COURSES

A candidate shall not offer as a major or principal course for a diploma a course which was a major or principal course of a diploma already conferred upon him, but shall offer an alternative course approved by the Senate.

At the end of each semester or year, all students should be classified into three categories based on their academic performance.
- 2.2 **First category:** students who have successfully completed at least 75% of the modules registered. Students falling into this category do not require immediate attention because their performance is deemed acceptable. However, optional interventions can be provided upon request.
- 2.3 **Second category:** students who have passed at least 50% and up to 74% of the registered modules. Students falling into this category require interventions which should be implemented to prevent further decline in their academic performance. - 2.4 **Third category:** students who have achieved below 50% of the registered modules. Students falling into this category should be subjected to strict academic probation. G.29 FINANCIAL AID BUREAU/FINANCIAL ASSISTANCE

G.29.1 GENERAL

The Financial Aid Bureau was established at Mangosuthu University of Technology in order to access available funds and distribute to financially needy but academically deserving students from a disadvantaged background.

The funds so accessed are received from a variety of donors/sponsors and they all have certain criteria and requirements that the Financial Aid Bureau must adhere to. Whilst the University does everything within its power to raise sufficient funds for all needy students who have made satisfactory academic progress, funding remains limited and insufficient to cover all needs.

Students are therefore encouraged and advised to attempt to find alternative sources of finance, and to assist them in those efforts, we have compiled a guide in a form of a booklet with a list of a possible sponsor/donors which is obtainable from the Financial Aid Bureau at the minimum cost of R5.00 per copy.

G.29.2 PROCEDURE

All students who wish to apply for financial assistance should apply directly to:

The Head
Financial Aid Bureau

P O Box 12363
