

#### **VISION**

##### **Shape and own the future**

To be a transforming, equitable, sustainable, and academically excellent University of Technology anchored in its communities.

#### **MISSION**

To offer technological, career-directed educational programmes focussing on the innovative problem-solving research and engage with government, business, industries and communities as end-users.

### **OPERATIONS DIRECTORATE**

**03 X INFRASTRUCTURE PROJECT MANAGERS: P6  
(1 of each Architecture, Quantity Surveying, and Civil / Structural Engineering and  
Construction Management)**

**Three (3) Year Fixed Term Contract**

The purpose of this position is to provide professional project management and technical leadership in the planning, coordination and delivery of the University's infrastructure projects, ensuring alignment with institutional strategic objectives and the Infrastructure Master Plan.

**The three positions are intended to provide discipline-specific expertise across Architecture, Quantity Surveying, and Civil/Structural Engineering/Construction Management within an integrated infrastructure delivery environment.**

#### **Key Performance Areas:**

- Project Management
- Strategic Leadership
- Financial Planning, Control & Management
- Risk Management
- Communication, Stakeholder Management and Reporting

#### **Minimum Requirements:**

- NQF 7 qualification such as BTech or BSc or Advanced Diploma in the Built Environment, specifically in Architecture, Quantity Surveying, Civil/Structural Engineering/Construction Management.
- A minimum of 7 years' experience in infrastructure project management, including management of large-scale built environment projects with exposure to financial control and reporting
- Proven ability in planning, coordinating, and directing multiple projects across different sites concurrently.
- Demonstrated experience in contract management, including administration of JBCC, NEC or similar contracts.
- Experience in project financial management, including budgeting, cost control and reporting.
- Experience in procurement processes and tender management within a regulated environment
- Sound knowledge of relevant legislation and regulations, including National Building Regulations, Occupational Health and Safety, and construction-related policies

- Proficiency in the use of project management tools and standard computer packages (including spreadsheets and reporting systems)
- Must be professionally registered with the relevant statutory council in the applicable discipline: SACAP (Professional Architect), SACQSP (Professional Quantity Surveyor), ECSA (Professional Engineer), and SACPCMP (Construction Manager or Professional Construction Manager), etc.
- Valid driver's licence

### **Recommendations:**

- 1 Project Management qualification (PMP, PRINCE2 or equivalent will be advantageous)
- 2 Demonstrated capability in managing multidisciplinary professional teams and service providers.
- 3 Strong stakeholder management, communication, and reporting skills.

### **Competencies:**

- Experience in financial analysis and project life cycle costing
- Professional English Language Skills & Business Writing Skills
- MS Office Suite including Excel and Projects: Highly proficient.
